AUCTION

BY
A Bullrich y Ca.
14 leagues of land
IN
LINCOLN
On FRIDAY, 14th Inst.
At 3 p.m.
Will be sold 14 leagues of the best land West of Lincoln, in lots of 1,000 hectareas (about 593 squares) with right to take 10,000 hectareas. Each lot is being surveyed and 'mojones' put down.
Basis of sale at the rate of $84,000 per league, about which amount can be paid to Government in eight yearly payments without interest.
Any amount over $84,000 per league to be paid cash.
These magnificent camps are about the same distance from Buenos Aires as the famous Venado Tuerto lands, and are
guaranteed to be as good.
No sand, no médanos, beautiful undulating land, capable of growing anything.
Such an opportunity as this for securing cheap land does not present itself every day.
Owing to the enormous increase in value of the central lands, owners of two or three flocks of sheep find it difficult to make a living, in fact are toiling the whole year for the landlord. Now is the opportunity for such men to become their own landlords.
European farmers do not require to be told how easy it is to refine land when the soil is good. In England all the grass would be 'pasto fuerte' if the land were not tilled and grass seeds put in.
A sheepfarmer and his peon can make a run for a flock of sheep in one year, raising trefoil, cardo and other grasses with care.
Now supposing that 1050 hectareas of the land that we sell fetch say $50,000, the purchaser can refine it in two year making it capable of carrying four flocks of sheep and consequently worth $1000 p square or $593000 for what he paid $50,000. So then, that we do not exaggerate we will cite the Partido of Rojas as an example. A few years ago the land there was all pasto fuerte, and was almost unsaleable. To-day there is land in Rojas worth $2000 p. square, and probably 50 leagues worth $1500 p. square. The same can be said of Pergamino, Chacabuco and other Partidos where the soil is not sandy.
The Province of Buenos Ayres will not sell any more public lands dadicating the amount available to colonies, so that land payable in eight years will soon be a thing of the past.
To make these lands worth $250,000 per league we only require wire fences, to make them worth 500,000 a railway, to make them worth 1,500,000 the plough, to make them worth 3,000,000 time, it is only a question of time. Let every man become his own landlord while there is yet time because the day is fast approaching when land will be beyond the reach of the poor man. Already two companies have been formed in London to purchase land in Buenos Ayres, and before many years probably half the land in the Argentine Republic will be in the hands of English capitalists. Then will be seen what is now common in Australia, a league of good land worth $8,000,000 m/c.
When we sold the Venado Tuerto lands at an average of $160,000 wiseacres smiled and said we had 'clavado los Ingleses.' It is only seven months since, and yet these lands have advanced 25 per cent in value. Several leagues have been sold at a smart profit, and last week Mr. Edward W. Murphy, purchaser of five leagues, refused $200,000 per league and expects to close the business at 250,000.
On Friday, 7th inst., the plans can be seen at our office, Alsina 78.
The magnificent estancias of Duggan, Sanford, Grigg, Ham, Samson etc. etc., lands worth from $200,000 to $300,000, are only a few leagues distant.
Purchasers paying cash will obtain 25 per cent discount in the amount payable to Government.

Lincoln Land

Messrs. A. BULLRICH & Co. beg to call attention to their sale of LINCOLN LAND on the 14th inst.
Anybody having say $20,000 cash can become owner of 1000 hectareas, nearly 600 squares, of excellent land, having eight years to pay balance without interest. Supposing that the price per league in auction be $140,000, the purchaser, by paying cash, can reduce the amount to about $119,000, obtaining 25 per cent discount in Bills payable to Government.
Do not forget that it will only take about $20,000 cash to purchase nearly 2,400 acres of magnificent land.

Associated Press Telegram

HAVAS' AGENCY

Paris, 7th
Telegrams from Tunis announce that our troops occupied yesterday the citadel and other forts of the capital of the Regency. It is believed that decisive operations against the insurgents in the country districts will begin shortly.

THE CHILIAN QUESTION.

The news from the West Coast yesterday has given a new phase to this rather old question, and although it is impossible to say what will be the finale of our present treaty negotiations, events have occurred sufficient to awaken distrust. Our colleague *La Republica*, a mezzo-official organ, in a very able leader on this subject yesterday, defines the position as extremely critical and points to the fact that the Chilian Government, instead of summoning its Congress to approve of the Argentine Limits Treaty, has sent a special mission to Peru with instructions either to conclude a peace treaty with the Provisional Government, or make a military occupation of the whole territory of Peru. The urgency of the instructions, the sudden determination of the new Chilian Government to bring matters to a head on the West Coast, and the persistent delays of the Chilian Government to advance one step towards ratifying the Argentine treaty, provoke a suspicion in the minds of many that the Chilian Government is playing a double part that our treaty will never be ratified, and that before three months are about South America will be in another blaze. To avert such a misfortune should be the especial policy of the Argentine Government, and, in the opinion of some, President Roca has no other course to follow than that adopted by the late Lord Beaconsfield, who saved Europe from a terrible war by convincing the Powers that England was both determined and ready either to fight it out or make peace. The whole country was turned out, recruiting carried on in Ireland and Scotland day and night, military preparations on the most gigantic scale adopted, all the arsenals crowded with workmen, and when every one thought war was inevitable, the 'Peace with Honor' treaty came and saved everything.

Affairs in this part of South America may not be in so critical a state as they were in Europe in 1878, yet there is a cloud, and the sooner this Chilian and Argentine question is once and for ever settled the better for both countries. The Argentine Senate should not lose a moment in further debating the treaty, but ratify it at once, as the time for its approval by both Governments, accorded in the Protocol, expires in 14 days, and it seems that the excuse on the West Coast about the delay is that the Argentine Congress has not yet despatched the measure.

There are telegrams to the effect that the new 'comision' sent to Peru will treat not only with Garcia Calderon but also with Pierola. This, of course, can only be a matter of surmise; but, should the Chilian Government succeed in making a treaty with Peru securing her the rich district of Tarapaca, it is more than probable the present members of the Chilian Government who oppose the Argentine treaty will waive their opposition in order to consolidate a peace which Chile more than any other country needs.

On the other hand, should Chile decline to ratify the limits treaty with this Republic, the cloud that now hangs over Patagonia, no bigger than a man's hand, may assume the terrible dimensions of a cyclone.

WAR AND MARINE.

Our esteemed Minister of War, Dr Victorica, has finally published his report on War and Marine, which has been submitted to Congress. Every chapter is a sweeping reform on the old routine, and should the Minister's projects be sanctioned and effectively carried out, the Republic may soon rely on as efficient an army organization as either France or Germany. All know that Argentine soldiers are made of the right stuff, but the officers in the army have not undergone the Polytechnic examination that turns out the German and French Lieutenant with a knowledge and theoretical instruction worthy of a first class commander. In this Republic individual bravery has too often been the stepping-stone to promotion: such men may be first-rate at the head of a regiment, to carry a point and obey orders; but they will never contribute the brains for strategy and council. A braver soldier than the Argentine, a more patient and fatigue-enduring man will not be found. During the last revolution many had occasion to admire these military virtues in the rawest recruits of the National Guard. But spite of all those qualities, there is a blot on the army that stigmatizes the entire body; it is an evil that must be summarily rooted out. We mean the 'destinado' system. No criminal should be allowed in the ranks, and both officers and men should raise their voice against this extraordinary abuse. Dr. Victorica, in one of his able projects, points to the removal of this blot on the army, since he expects to fill the ranks by conscription out of the National Guards. The move is statesmanlike and republican; thus all without distinction must serve, black and white, Indian and gaucho, poor and rich. In reference to the National Guard Dr. Victorica states that over one hundred thousand able-bodied young men can be called into active service, and that the efforts of the Government will be directed towards making out of this large body a well-instructed, well-disciplined and well-equipped engine of war, ready to be called out at short notice and to march, whilst the heavier reserves defend the interior. Such large figures are indeed a surprise, and we hope soon to see the day when Sr. Victorica will place the active National Guard in such numbers and in such an efficient condition. One hundred thousand men are always a powerful guarantee of peace.

As regards the standing army of the Line it is to be constituted by conscription, from six to eight thousand men strong. The infantry 325 men each; the cavalry regiments will number 350 men each; the regiments are to be so formed that in case of emergency reserves can be called out and exactly double the numbers of troops. As regards the artillery a new regiment is to be created, thus making three and constituting with the field-pieces the basis for an army of 50,000 men. A polygon is to be constructed near the city for gunpractice, and the number of pupils in the Artillery School will be increased. These reforms in artillery are very badly wanted; gunners decided the battle of Sedan. The army also needs a strong regiment of engineers, besides one of mechanics, 'zapadores,' etc. The Parque men are to be incorporated in a battalion for the purpose. It is only when reading all these projects that one forms an accurate idea of the many deficiencies in the organization of the army. Thus to our astonishment we see the Government still imports powder, and that a powder magazine is being constructed now in the Rio IV. to remove the difficulty and expense of importing the article.

The Remington used by the army, and which constitutes our new Argentine rifle, is pronounced excellent; at the same time the Minister states that there is no gun that is superior to the one turned out in the Parque. We believe that both rifle and gun were improved by General Viejobueno, one of the best military men in South America. Argentines may be proud of these facts, and we believe they are the only nation in South America that have their own national instruments of war. The powder magazine, nevertheless, should have produced Argentine powder ten years ago. We have all the necessary stuff in the country, and Patagonia in itself is an inexhaustible deposit of the principal constituents of the article. The site of the magazine has been fixed in Rio IV, out of

economical and strategical motives, the farther away from B. Aires, the better.

On the heels of these reforms we see new projects on many other military items, and, especially with regard to the military penal code, the organization of the tribunals, &c. The general staff is to be composed of officers who have finished their studies and passed a theoretical and practical examination: this very wise measure will henceforward close the door to many unqualified abuses. It is a pleasure to learn from the Minister that all the regiments in garrison in this city have their academies of officers, where all the branches of the service are discussed and studied.

Minister Victorica shows his great ability all throughout his considerations on these reforms. As he well states, his views are distinct from any kind of militarization that might paralyze the vital parts of the nation. Reform is necessary everywhere, and to make good soldiers the country must have good officers, and perfect organization. Disorganization in military matters is the ruin of a country, and Peru is an eloquent proof of this assertion. Thus, our talented War Minister consults the future and good of the country, endeavouring to insure a perfect military organization, with strict discipline, and commanded by instructed officers. We note some further remarks on the devotion to the Government of the troops and National Guard of the Republic during the revolution of 1880; all have had occasion to appreciate same, and so there is no necessity of recapitulating the facts.

REVISTA FARMACEUTICA.

In the last number of this most important professional publication we note, amongst other interesting matters, a well-written article attacking the measure that obliges all apothecaries to open their doors at any hour of the night.

Without entering into the merits of the complaints, there is one which is well founded and should attract the attention of the authorities—it refers to the want of representation of the chemical body in the National Department of Health. The motives for that deficiency are not apparent, and, very probably, spring from an oversight or neglect. That some representation of the kind is a paramount necessity may be gathered from the following melancholy event, which will be new to our readers, although it happened some months ago:—

About the end of July a young man, named Caldentey, a student of engineering, resolved to commit suicide, and selected the Arroyo Maldonado for the spot, where, with a revolver of from 7 to 9 m.m., he blew out his brains one night after 12 o'clock.

The police agents of the 17th Section picked up the wounded man and removed him to the Commissary's office in the Calle Santa Fe, at the corner of the Calle Coronel, near the Penitentiary.

The wounded man was removed from thence to three different apothecaries in the Calle Santa Fe, where no assistance would be given, owing to the very serious character of the wound, which needed the intervention of a doctor.

When the Commissary sent in his report he mentioned the fact that none of the beforementioned apothecaries would assist the unfortunate patient.

The Chief of Police, quite forgetful that he has at his orders a medical staff to attend to these cases, handed a note to the National Department of Health, with some abusive remarks against the chemical body. The Department of National Health answered the note of the Chief of Police in these terms:—

This Department having been consulted as to the measures necessary to avoid a repetition of such cases as that of Mr. Caldentey, has resolved that all apothecaries be notified that they must open their doors at any moment, when requested, as this kind of trade cannot be carried on without certain obligations that are fully compensated for by the privileges enjoyed.

P. Pardo,
President.

Since then the measure has been enforced with ostentation by the Commissaries. Whether it be advisable or not, justifiable or unjustifiable, we leave to our readers to decide, but there is one thing certain, and that is, that Buenos Aires druggists may well afford to stop up all night, as the business is a gold mine that enriches the proprietors in a very short time. The prominent cause of their success lies in the exorbitant charges for every species of medicine or drug.

NATIONAL MOURNING.

To-day has been decreed by the National Government as a day of National mourning for the death of President Garfield. We believe few other countries have equalled this Republic in its demonstration of sorrow at the great loss the United States have suffered, and the American Government will read in the subjoined decree the very close sympathies and friendship that exist in the Plate for the great American Union:—

GOVERNMENT DECREE.

Buenos Aires, Oct. 4, 1881.

The Most Excellent Minister of the United States of North America having officially communicated the lamented death of President General Garfield, and as the Argentine Government desires to make manifest the profound sorrow of this Republic at the death of the illustrious citizen who was called to preside over the great American Nation.

The President of the Republic decrees;

In testimony of grief for the irreparable loss suffered by the United States of North America in the death of its Chief Magistrate, the National public offices in the Capital and all the provinces shall fly the National ensign at half-mast during the whole of the 8th instant.

The vessels of the National Squadron shall do likewise on the same day.

Let this decree be communicated to the Most Excellent Minister of the United States, with an expression of the sincere grief felt by the Argentine People and Government at the sad event that has plunged the American people into mourning.

COLON THEATRE.

Paola Marié took her benefit on Thursday in La Perichole, which was just the opera to show the public what a great artist can do. In that style Paola has, I believe, no rival. The drunken scene, when she gets married, is irresistible, and the life and spirit thrown into the piece from beginning to end displays great histrionic talent. All these French operas are but little known in Buenos Aires, as they have only been indifferently performed at the Variedades and the Alcazar, but now that we have had the opportunity of seeing them properly put on the stage, they will become an institution, and in the course of time they will, no doubt, be appreciated even by the 'high life' of this aristocratic city. No wonder, Paola, that you are so much supplied with diamonds, it proves how you have been appreciated, and, no doubt, when you are as well known as Schnieder you will be covered with the most costly jewels, as she has been. Some people say that the Grande Duchesse, rendered by Paola, will establish her reputation as to being competent to substitute Schnieder in the most satisfactory manner, of which I do not entertain the shadow of a doubt.

The whole of Mr. Grau's company is good, the tenor and baritone excellent.

Should La Perichole be repeated I am sure it will be enthusiastically received.

Mdlle. Paola was presented with three magnificent bouquets of gigantic dimensions, and besides a portable one of very tasty construction, The usual gifts of albums, electro-plated teapots and ivory-bound prayer-books were not forthcoming on this occasion.

EDITOR'S TABLE.

The National Government has decreed official signs of mourning to-day for the late murdered President of the United States. Coming after the demonstration of last Sunday week, by the people 'en masse,' anything official in the same direction will seem formal, but formality is the life of Governments, and to-day's official mourning will complete the abundant proofs of genuine sympathy which this country has given to the Great Republic in the latter's hour of sorrow.

'Quod novi fert Chili' is now the matutinal query by everybody, which shows the direction in which public anxiety is veering. There is certainly cause for some uneasiness, but even the famous Schleswig Holstein question was settled at last, but in a way which, it is to be hoped, will not be necessary in the Chilian.

The French steamer Orenoque sails this afternoon. Mails close at the General Post Office at 1 o'clock sharp.

A petition in favour of the Sunday Closing edict recently issued by the Municipality, and to be signed exclusively by the Englishwomen of Buenos Ayres, now lies at our office. We invite all our fair countrywomen to call and sign it. The Portena ladies have already signed a similar petition, to the number of 500, and we have no doubt that the ladies of every nationality in town will be equally ready to come forward in the cause of Health, Morality and Religion, all of which are by the inscrutable designs of Providence, bound up in the due observance of the Commandment to keep the Sabbath as a day of Rest. It is an old and perfectly true axiom that the influence of Woman rules the world; it has toppled thrones ere now, and will again, and we look to see it vigorously used now, in private and public, by the women of Buenos Ayres, to crush the long-standing abuse of Sunday work in the capital of the republic.

For the convenience of our lady readers we have added a short section to On 'Change, giving the current prices of beefsteaks, mutton chops, 'biscachas,' fruit, fish, etc. As many ladies, we hear, now dabble a little on the Bolsa, as the ladies of Paris do, we have placed the new market report at the end of On 'Change, so that their eyes may glide, by an easy transition, from the prices of Bank shares and gold to those of beef and potatoes, two things which become of intense importance to the male portion of the community 'despues de hora oficial.'

A corollary to the Asses' Bridge Chilian problem has sprung up in the claim of M Rouquaud for damages suffered by him at Santa Cruz in 1874, when the Chilians made smash of his fish oil establishment down there. The French Government are considering his claims against the Argentine Government in the matter, and the French gunboat Tactique sailed the other day from Montevideo for Santa Cruz, to inspect the ruined establishment and assess the damage done to Mr R.

The impending trip of the French Minister, Count Amelot de Chaillou, is not to Misiones, as supposed, but in quite an opposite direction.

The Rosario papers are even drier and drearier than usual. The girls (even the old girls) up there all now wear their hair 'a la chien,' and our esteemed colleague the *Capital* expresses its extreme disapprobation of the 'outre' fashion, and hints that girls in general would look much lovelier, if they only left themselves as God made them, instead of blindly following every caprice of 'la moda.' Hear! Hear! say we.

Several of our estanciero friends have called our attention to valuable properties possessed by a preparation for the cure of foot-rot in sheep which has been practically and thoroughly tried at the Rural Show The results which were obtained speak highly for its efficacy, and as the disease is, unfortunately, a widely-spread one, we feel certain it only requires to be known to command a large sale. An Azul estanciero, Sr Frers, is the inventor, and we have pleasure in congratulating him on his success.

We are glad to see that Mr Guillot has obtained from the Continental Exhibition Commissioners the privilege of drawing up the Catalogue of the coming Show. No part of the arduous work of getting up an Exhibition is harder than that of preparing a proper Catalogue of the exhibits; in fact success depends in a great measure on a lucid Catalogue. Mr G's experience in this way is a guarantee that the Commissioners have named the right man to the right place. Those who intend to advertize in the Catalogue must apply to Messrs Kidd and Co., 117 Calle Corrientes, who have the contract for printing same.

The Cordoba papers say they are all half grilled up there, the heat has been so great for some days past.

We had another letter yesterday from our much-injured subscriber 'A Treasury Bond Esq.' once the 'lion' of London financial society, but now so slighted that none care to do him reverence much over his par value, and a few more kicks will scarcely leave him even worth that His note will be found in 'on Change.'

Part of the list of the prize winners at the Cattle Show will be found in our Supplement to-day. The whole is so long that we are forced to hold the rest for our next issue.

Private telegrams from the West Coast say that President Calderon Garcia of Peru has fled to Europe. The same as Prado. Poor Peru.

Major Bonahora's sad suicide at Rio Cuarto is now said to have been caused by his having been reprimanded in general orders for being absent without leave.

An important decree has been issued converting the 12 Battalions of the army into six regiments, under the respective command of Colonels Donovan, Fotheringham' Roca, Bedoya, Bernal and Bosch.

Most of our colleagues, Argentine and foreign, adopt warmly the *Republica's* idea of a Press Association. It will, perhaps, develop as far as the purchase of an emblazoned flag for the "gremio" to march behind at the next 'fiesta.'

The R.M.S. Neva arrived at Montevideo yesterday. Her news has been anticipated. Many friends have arrived in her — Mr. M. Forrester, Mr Smithers, Mr Cooper and others. We bid them all 100,000 welcomes. Mr Petre. Her Majesty's Minister, is also on board.

Householders should brush up (and down) their premises, as the Health Inspectors are now going their rounds before the hot weather sets in.

There will be Mass, with Sermon in English, to-morrow at San Roque Church, at noon, as usual.

The foreign community were intensely shocked and distressed yesterday evening on learning the outrage on Dn Emilio Castro. This highly respected gentleman was entering his house in Calle Reconquista when a negro rushed on him with a drawn knife and drove it through the back of his neck. The wound is not a very dangerous one, and hopes are entertained of Mr. Castro's speedy recovery from his injuries.

In spite of the enormous natural advantages of this country our wealthy men are in straitened circumstances when compared with those of California. A German admirer has favored us with the following in reference to the big-wigs on the Contribution Directa list here The figures are enough to make our 'Rentas' officials die of envy:—"In San Francisco the highest contributor of the town is James Fair. His fortune is valued at 42,000,000 hard dollars. After him follows F. C. Flood with 35,000,000 dollars for himself and 20,500,000 for F. W. Mackay, as the latter's representative. The fortune of Charles Crocker is only valued at fts 20,000,000."

Patacons	25.55
Cedulas A	99⅝
National Bank Shares	118
Belgrano Tramway	50
Central Argentine	£21

The market showed something of a change to-day, nearly a million of patacons bought and sold during official hours, and fully half a million bought at afterhours. It was very generally said that the Government was selling gold in order to check whatever effect the bad news from London of the raising of the Bank rate to 5 o/o might cause; but spite of all the gold sold 'efectivo' and by speculators the market takes it all, and it is really wonderful that prices do not give way. Gold for cash opened and closed at 25 55; cash sales, 90,000 pats. On long dates over half a million pats sold at 25.65, and for end of month 195,000 pats sold at same rate. For the first time after a long pause we noticed to-day signs of returning speculation in gold.

Before the ring opened it was known that the Provincial Bank had received telegram from London, announcing a sudden rise in the Bank rate to 5 o/o, which in high commercial circles gave rise to a little uneasiness. Cedulas ruled very shaky, more offered than sold, and prices for end of month dropped to 99⅝, and for Nov. at 99½.

National Bank Shares also ruled weak; scarcely anything sold cash, only 50 shares at 118, but for end of month 7,800 shares sold, opening at 121½, dropping to 119 and closing at 120. For Nov. there seems to be as yet no market, which is most extraordinary, 150 sold, opening at 121½, closing at 120.

On the close of the ring a judicial auction of 10 Central Argentine Railway Shares was called, £20 shares sold for £21, Mr Beilstein buyer. Many parties complain of this system of sale, as outsiders who would purchase the stock have no opportunity to make a bid.

The loss of the fine steamer Govino on the English bank with 1,500 tons rails for the Pergamino Branch Railway was the unwelcome news this morning; this is a severe loss as the rails were so needed, and it will take so much time to replace them. The Donati also brings rails, but not by any means so large a consignment, for the same railway.

At 3 o'clock the news spread like wildfire that Dn Emilio Castro was stabbed by a negro as he entered his house in Calle Reconquista, the knife entering at the neck and slipping over the mouth. Such melancholy intelligence caused nothing short of a sensation, and crowds called at Mr Castro's house to enquire the truth of the rumour which we deplore to say proved but too true. Mr Castro lies in a most dangerous state. The negro has been arrested, but as yet nothing known of his motives for so dastardly an act. Mr Castro is much and deservedly esteemed by all; he is an ex Governor of this province, and in many other public trusts has lent good services to his country; of late he has not figured much in politics and retired to private life; the sad news caused a profound impression on Change.

The Neva laden with gold entered Montevideo to-day and will be up in the morning; she brings £50,000 to Provincial Bank and £94,000 to the Mint, and is crowded with passengers, most of whose names we have already announced.

The Provincial Bank discounted to-day 5½ millions currency.

Telegrams from London give silver yesterday at 51½ against 51¾ previous quotation.

The Municipality held a long meeting today on the subject of the City Hospitals. On motion of Dr Bosch it was decided not to appoint a new doctor for the San Roque Hospital until it was known if from the other hospitals one of the doctors could not be spared.

At afterhours some 250,000 pats. were thrown on the market by a well known operator for the end of the month and bought up chiefly for account of German houses at 25 60; market closed weaker.

Exchange done to-day at 49⅞ for mail tomorrow, and francs at 5.28.

There was more new wool sold to-day in Plaza Once, one lot of 1000 ar. from San Ramon. Mr Duggan bought for sample to go by steamer at 96; and another lot of 400 ar. sold by Dn. Nicanor Fernandez at 86; both wools considered to be very well sold.

Bank Shares at afterhours dropped to 118, and then picked up a little closing at 119 to 119¼.

Cedulas, some large holders pushing their stock on the market, two lots of 50,000 each sold for end of month, market closes weak.

In South Market no new wool in this morning.

Belgreno Tram Shares offering at 50.

They said on 'Change that many telegrams were received to-day from London, but the news held up; the drain of gold to the United States must necessarily continue in order to account for the advance of the Bank rate; some merchants think that the rate will go still higher, and that for the present there need be no attempt to make any fresh Argloans.

On Sunday last the 1000 sheep belonging to Dn Lorenzo Echevarria of San Nicolas were sold by auction by Messrs. Degreef & Co. The result of this sale was looked forward to with some anxiety, as no important sales of sheep have been realised of late, and the news regarding wool rather unsatisfactory. Notwithstanding the good class of the sheep, the price obtained was not very flattering, as on an average they fetched only $35 m/c which establishes a price of about $30 m/c for sheep after shearing. Since the late rains the camps are rapidly improving and seem to promise a plentiful supply of grass for the coming summer.

The following sales reported at the Plaza Once this morning:—

The following is the letter which appeared in the *Times* of 7th Sept. about the Treasury Bills, and has caused such great notice. Many of our readers may remember Mr Aungier who spent some years in the Plate, and is now a broker on the London Stock Exchange:—

"The following letter refers to the paragraph in yesterday's article on the redemption of the Argentine 9 o/o Treasury Bonds. The matter would probably be satisfactorily cleared up if Mr Yaniz can state that he has had the authority of his Government for stating that the Bonds can only be redeemed by purchase in the market—

"Stock Exchange, Sept. 6th

"Sir,

"May I beg of you to insert the enclosed query to Mr Yaniz?

"The value of the statement in your city article this morning depends entirely upon its authority. As to the clause in the 9 o/o Bonds to which Mr Yaniz refers, every holder of the Bonds is aware of it. A similar clause in the Hungarian 6 o/o Gold Rente Bonds has not prevented the Hungarian Government redeeming at par, though the Bonds had gone to a premium, without any protest being made.

"I am yours respectfully,

"JOHN AUNGIER."

The Mortgage Bank project it seems was by mistake laid before the Senate, and yesterday it was withdrawn and sent before the Deputies; we learn that the Committee of Hacienda of the Deputies has been already consulted and approves of the measure.

The article in to-day's *Republica* on the Chilian question was the talk of the whole market; it appears that the Chilian Government has not as yet summoned its Congress to special session, and that it is more occupied with its questions with Peru than this country. The question is assuming some importance, as the term agreed on in the protocol for the approval of the treaty expires on 22nd October. We suppose that a further extension of time must be agreed on, as it is almost impossible in so short a time to conclude a question that has hung over us for more than half a century.

Our colleague, *La Libertad*, shews that the emission of specie notes has been reduced since last July from $f.15,275,294 to $f.12,090,582. Thus withdrawing from circulation 3,184,712 patacons, and notwithstanding this, gold instead of falling has risen from 25.45 to 25.65. The stock of gold on hand in the Bank has much increased within the last 3 months, owing to the large sums imported from London

Gold on hand, July,	1,603,763	
Do	Aug.	1,176,821
Do	Sept.	1,377,881

And the returns this month will be still higher, due to sums imported, and the large amount paid by the London & River Plate Bank on account of Riachuelo loan.

It seems that the works on the Pergamino branch of the Western Railway are suspended for the present, owing to a strike of the peones, and we heard on 'Change that the works on the Tucuman extension are also stopped.

The Minister of Hacienda yesterday issued a decree closing all subscriptions for National lands by the officers in the army, and no further petitions will be allowed, and those at present before the Government and not yet despatched must stand over for the present. This decree will cause a flurry in a very wide circle, and stop all further speculation in these army land warrants.

Mr Blas Dhers, the well known miller of Azul, has just returned from Europe, bringing we hear some 500 Basque farmers, all well supplied with agricultural implements, machinery, seeds, &c. If every foreigner who makes a fortune in this country would act as Mr Blas Dhers has done, what a special change would come over the camps in this Province. Mr Dhers merits from the Government some recognition for such invaluable services.

The Bove expedition to Tierra del Fuego is now being got ready in all haste. The following war vessels will compose this all important expedition—

Gunboat—Uruguay
Do Parana
Corvette—Cabo de Hornos

And yesterday message was sent to Governor Alvaro Barros to order the Cabo de Hornos up to this port

With much pleasure we publish the following correction of wool sales published in our last—

We have received the following for publication in this column:—

Buenos Aires, Oct. 7th, 1881

To the Editor of the *Standard*,

Dear Sir,

It is to be sincerely hoped that the unanimous condemnation of the Government consolidation scheme will lead them to reflect, and withdraw the project before Congress has had time to take the matter up.

Will you permit me through your columns to call attention to one item in connexion with it, which is enough to make a taxpayers hair stand on end? The unhappy Railway Loan, so unaccountably sacrificed, was, as you will remember, done at 82. It is now proposed to pay this off at par and to give the holder an additional 5 o/o as bonus, making a total difference of 23. So the Government will only have got 59 for their loan. These figures require no comment.

Yours obedient servant,
A. T. BOND.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Diehl. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

Los titulos son inmejarables, por planos y otros datos, ocurrir San Martin 51.

THE RURAL EXHIBITION

Thursday was a great day at the Exhibition. The weather was glorious and the grounds were crowded, the girls from the city schools and the boys of the 'Escuela Naval' forming a large and happy portion of the visitors. Exhibiters and buyers also mustered strong. Mr Molina's Shetland pony Machito, whose bridle was held by his little daughter, was photographed, crowds, gathering round to see the operation, during which the Shetlander was rather restive. A magnificent Durham bull calf caused a panic by escaping from his stall and running amuck amongst the visitors, evidently looking out for a china shop. The little school girls were terribly frightened, but fortunately his captorship was secured by some plucky estancieros before he could do any harm. More than the little girls were frightened, and for a moment there was a general stampede—a 'Bull's-run' in fact.

Subsequently the awards of the Juries, all under sealed envelope were opened and read by Mr Sundblad, President of the Society, several of the winners' names being received with cheers. The following is a list of the winners' names—
